Complies to UK Flammability regulations

LEGS

The legs are Rubber wood and natural variation may occur

This is suitable for domestic use only

CARING FOR YOUR UPHOLSTERED FURNITURE

To ensure that your upholstered furniture is kept in pristine condition lightly vacuum (on low power, avoid high power suction) to pick up any fluff or marks that have been left.

If you do this regularly, your upholstered product will remain in the best condition

Do not overload storage area. Maximum internal 15kg

Ensure weight is evenly distributed within the ottoman

NEVER use water to clean fabric – use a dry cloth to remove surface moisture. Always dab the affected area, DO NOT rub

IMPORTANT: Velvet is inherently sensitive to pressure. Any marks left after scuffing or compression will come out given time, but this process can be helped along by lightly steaming the affected area. This is a natural characteristic of this type of fine fabric. It does not in any way, detract from its wearing ability.

It is always advisable to use a specialist upholstery dry cleaner
For best results with more stubborn stains, use a reputable specialist dry cleaning service

Dust the wooden legs with furniture polish and a cloth. Please be careful
not to get polish on the fabric as this may cause staining

Do not drag your upholstery as it may damage the joints and mark your floor
Avoid sharp objects. Indoor use only
