TILE INLAY on MDF WITH IRON SURROUND

The tabletop tiles are made from left over pieces of broken

ceramic and are arranged by hand on the tabletop

These are then held in place with a white cement

Due to this, variations in colour, pattern, and finish may occur

Moreover, please note that the tabletop will not be completely flat and level due to the hand crafted nature of the piece

METAL LEGS

Iron metal legs hand made

All grinding and polishing has been done by hand making the table unique

Variation will inherently occur

Electroplated finish
