

Thank you for selecting this new light fitting. All products are thoughtfully designed and manufactured. So that you may get the most from your new light fitting we offer the following guidelines to assist you.

Contents

1 x Table lamp; 1 x Glass shade.

Important

Do not plug this lamp into the mains supply until it is completely assembled.

Before starting

Please read through these instructions before commencing, and keep them for future reference. This light fitting is suitable for indoor use only.

Selecting the correct light bulb (not included)

- ◆ Maximum Wattage – 1 x 6W LED OR MAX 28W HALOGEN
- ◆ Voltage – 240 Volts.
- ◆ Light bulb type –G9

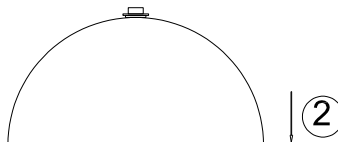

Insert the bulb taking care not to touch them with bare fingers.

Do not exceed the maximum wattage, This may cause your light fitting to overheat.

Attaching shade

Place shade onto metal supports,
ensure shade is secured in place.

Switch on!

You may now plug the lamp to mains. We are sure you will be pleased with your new light fitting.

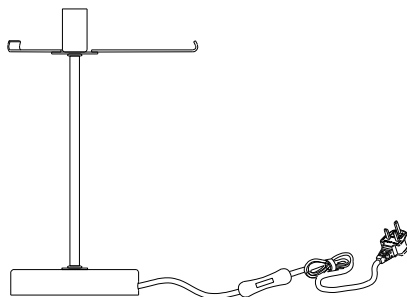

Cleaning care

We recommend cleaning with a soft dry cloth. Do not use abrasive materials as these will rub away the decorative finish.

Safety information

For your safety, please remember the following:
Always switch off the supply before changing light bulbs or cleaning.

Allow bulbs to cool down before handling.
